Reach your full potential in Fashion Product Development at La Fabrique

by Jacques Drujon
La Fabrique - Fashion Program Manager

La Fabrique is the leading Graduate School of the Greater Paris Chamber of Commerce and Industry. It was created from the 2013 merger between *ESIV*, *Ateliers Grégoire* and *ESDC*, respectively dedicated to Fashion, Leather Goods & Upholstery and Visual Merchandising. Our new **MSc in Fashion Product Development** will offer you the great opportunity to acquire first-rate techniques and management skills which are required by the top fashion labels around the world.

Our new Graduate Program is developed by **La Fabrique - Fashion Program**, originally *ESIV*, which was founded in 1945 and dedicated to the Textile and Clothing Industry. Aimed at the industrialization of fashion clothing products, famous fashion designers such as Mr. André Courrèges or Mr. Jean-Charles de Castelbajac enrolled that program such as to improve their perfect knowledge in the making up of a garment.

Our cutting-edge professional equipment will allow you to practice in the real environment of a factory. Our faculty is composed of professionals who will share their expertise and manufacturing secrets, in coherence with the French Haute couture fields of activity.

A 6-month work placement will complete your graduate program and be the chance to apply your knowledge and sharpen your skills and know-how.

The MSc in Fashion Product Development aims to help you deepening your knowledge in Fashion Product Development or acquiring new expertise in Fashion.

Duration

- Courses at *La Fabrique*: 6 months, from October 2019 to March 2020
- Internship/Work placement: 6 months, from April to September 2020

Learning Goals

- Identify the key players in the product development chain
- Understand clothing manufacturing process
- Acquire a thorough knowledge of the different aspects of fashion product development
- Oversee the production and quality processes
- Learn to manage intercultural teams
- Develop your know-how in a company thanks to a 6-month internship or work placement

Learning Outcomes

You will be able to:

- Work closely with the design and technical teams
- Master the whole process of fashion collection development
- Manage and control Production and Quality
- Develop fashion products according to quality standards

Entry Requirements

- Undergraduate level: a 3 or 4-year Bachelor's Degree in Fashion Design, Fashion & Luxury Management, Art & Design, Textile Technology or any other relevant Undergraduate Degree from a Business School
- A strong interest in Fashion
- A first-hand experience in Fashion or Fashion Retail would be highly appreciated but is not required
- Proficiency in English is required - English proficiency test scores are required for non-native speakers: IELTS: 6.5 with a minimum of 5.5 in each of the 4 skills (on one single test) or TOEFL iBT: 85 or TOEIC: 850
- Country-specific requirement documents: www.lafabrique-ecole.fr
